

Concept idea

A better parkway link by Berberry Close and St Francis C of E School

The dirt path by St Francis C of E School and the back gardens of Berberry Close is currently an uninviting and unattractive section of the parkway route, from Woodlands Park Road to Bournville Lane.

It is proposed that this section would be enlivened by bands of brightly coloured surfacing, in combination with signature lighting.

The scheme would include security measures to the boundaries of back gardens as well as 'laying' the overhanging vegetation to form a neat hedge.
