

Concept idea

New waymark features along the parkway

Located at strategic intervals along the parkway stretching from Bournville Lane in the north to Bunbury Road in the south, would be a number of 'waymark' features.

These would help promote the existence of the parkway system and carry maps and community information as well as providing seating and a limited degree of shelter.

Some may also provide basic exercise equipment in order to promote health and fitness, designed particularly to suit elderly residents.
