## The Woodbrooke Link - restoring a link between Weoley Parkway and Valley Parkway

Historically, a footpath ran from the yachting pool along what is now the rear boundary of Imperial House to the Bristol Road, allowing a direct connection along the Valley Parkway system.

The idea is to restore this route along a more direct path to link with the entrance of Weoley Hill Parkway. This would have a positive effect of opening up the yachting pool to more visitors as well as greatly improving the inter-connection along the Parkway.
